Dear Colleagues,

This year the Italian Academy of Conservative and Restorative Dentistry (AIC) and the European Federation of Conservative Dentistry (EFCD) have the honor and pride to organize, together, the most important Conservative Dentistry Congress in Europe. ConsEuro is an outstanding event were researchers and clinicians from European countries can illustrate the state of art in Conservative Dentistry and present their latest scientific research.

To this exceptional meeting, AIC and EFCD have invited prestigious clinicians, researchers and experts from Italy and Europe to present their internationally acclaimed work in the field of Conservative and Restorative Dentistry, with a special focus on digital dentistry and its application to the restoration of teeth.

Preserving healthy tooth tissues has become the leading thread of our clinical activity and the goal we strive to achieve in our daily clinical practice. The concepts of minimally invasive dentistry, encouraged by the effectiveness of adhesive systems, are the principles of modern Restorative Dentistry in an attempt to maintain what has been saved from decay and wear. In this context, the digital approach offers great potential for the clinician, but an update on when and where a digital workflow could help us is essential.

The meeting program touches every aspect of Restorative Dentistry, and the best speakers from all over Europe will present a complete view on the latest techniques to achieve the best results, which have to combine functionality and aesthetics, easy execution and acceptable biological and financial costs. Thus, we will discuss: Adhesive systems in direct and indirect techniques, advantages and disadvantages of bioactive materials, remineralization and minimally invasive techniques and latest protocols in direct and indirect restorations. Moreover, a session focused on the digital workflow and another on aesthetics in restorative dentistry compliment the program.

Finally, also following new perspectives in restorative dentistry, independent sessions for Oral Hygienists and Dental Technicians are organized.

We will be delighted to welcome you to Bologna to share with us the exciting program offered by the AIC 19th International Congress and ConsEuro 2017: A great congress, with great people, will create an unforgettable meeting full of science, knowledge, friendship and fun!

TRAVEL TO AND WITHIN BOLOGNA

Bologna is easy to reach. There are various airlines that fly directly to Bologna as well as excellent train connections from the major cities in Italy. In case your preferred airline does not offer direct flights to Bologna we recommend to book a flight to Milan and then take the direct train to Bologna. The high-speed railway connection is fast and the tickets well-priced.

By plane

Guglielmo Marconi International Airport, 15 minutes by bus from the town centre, links Bologna with the main Italian and European airports. The airport is located just a few minutes from the city centre, served by taxi and a special bus line called the Aerobus. A taxi from the airport to the centre costs about €15. An Aerobus Ticket costs €6, and it stops outside the main terminal building.

By train

Due to its central location and geography, Bologna has emerged as the main rail transport hub of northern Italy, making it very well connected with other major Italian cities. The train is a very common means of transport. From 14 December 2008, the new high speed railway line is available to/from Milan, shortening the journey to 65 minutes. Bologna is also 37 minutes from Florence, 2 hours 20 minutes from Rome, 2 hours from Venice, 1 hour from Ferrara, etc.
Last trip in the evening from Palazzo dei Congressi at h. 20:20

HOTEL RESERVATION
Thanks to the collaboration with Bologna Welcome, you may very simply book online your stay in Bologna during the AIC Congress. Visit us at www.accademiaitalianadiconservativa.it and click on the link "hotel booking on-line" from the home page. You can rely on hotel facilities selected among the best available ones and on an immediate confirmation of your reservation. A pick-up service for and from the Congress Venue will be provided if you book through Bologna Welcome.

VISA REQUIREMENTS
In case you need an invitation letter for visa purposes, please contact the Congress Secretariat (aic-conseuro@mjeventi.com). We strongly advise to contact the Congress Secretariat as early as possible.

NEEDS/ DISABLED DELAGATES
Congress Conference Centre treats the needs of disabled delegates and speakers with great importance. The conference venue retains a consultancy to conduct regular assessments and advice on disability issues and regulations to ensure it meets standards. Raised step treads outside the building to assist blind and partially sighted delegates, with entrance ramps for wheelchair users. All lifts accommodate standard wheelchairs and have low-level buttons and voice over. Congress Hall has an entrance ramp for wheelchair users and there is a further ramp onto the stage allowing speakers easy access to the podium. All doorways are wide enough to accommodate standard wheelchairs. Accessible toilets are located on the lower ground floor.
Wheelchairs for use by visitors can be booked in advance of your visit by contacting the Organising Segretariat. Please note that assistance cannot be provided in the use of these wheelchairs.
If you have a larger sized wheelchair, you will need to advise us in advance of your visit so that we can arrange for your access.

TIME ZONE
Bologna is in the Central European Time Zone (CET). CET is 1 hour ahead of Greenwich Mean Time (GMT+1).
